

Tell Me it's Over

Lyrics © Kate Northrop, Music by Anders Larsson

Verse 1

I thought you were nice
But your fire is on ice
And I think it might be dead

Yes something is wrong
And I waited too long
Cause you're still here in my bed

Pre-Chorus

It's gotten so boring
There's nothing left to say
Don't keep ignoring
That I'm not blown away

Chorus

So tell me it's over
Don't want us to be mediocre
Tell me it's over
It's not gonna work when I'm sober
It's so hard for me to say
I can't break your heart this way
So tell me it's over
It's not gonna work when I'm sober

Verse 2

I can't be miss right
Or your guiding light
Cause I'm fumbling in the dark

So find someone new
I could never stay true
Cause I just don't feel the spark

Pre-Chorus

It's gotten so boring
There's nothing left to say
Don't keep ignoring
That I'm not blown away

Chorus

So tell me it's over
Don't want us to be mediocre
Tell me it's over
It's not gonna work when I'm sober
It's so hard for me to say
I can't break your heart this way
So tell me it's over
It's not gonna work when I'm sober

Bridge

No I'm not in love
But it's hard to say goodbye
No I'm not in love
Still don't want to make you cry

Chorus

So tell me it's over
Don't want us to be mediocre
Tell me it's over
It's not gonna work when I'm sober
It's so hard for me to say
I can't break your heart this way
So tell me it's over
It's not gonna work when I'm sober
