

## Lighten Up

Lyrics © Kate Northrop, Music by Anders Larsson

### Intro

Five times more fun  
I know what you need  
Five times more fun  
I know what you need

### Verse 1

Hot days, you're never in the back yard  
Girl you are always workin' too hard  
Time out, c'mon 'n' take it easy  
When are you comin' out to see me

### Pre-Chorus

Can't stop your midnight oil from burning  
Guess what, my world will keep on turning  
Don't let it turn without you

(Five times more fun)

### Chorus

Lighten up  
It's summer, and everything's alive  
Lighten up  
Just waitin' for you to take the ride  
And the hot night's fallin'  
Dance floor callin'  
Life won't let you hide  
Just lighten up  
Keep dancing  
Until the morning light

### Verse 2

No point in dyin' for the deadline  
You could be livin' for the sweet time  
Kick back, c'mon 'n' feel the power  
It's time to turn the music louder

### Pre-Chorus

Long days, so baby what's your hurry  
Cool drink to take away the worry  
Still time to start the party

(Five times more fun)

### Chorus

Lighten up  
It's summer, and everything's alive  
Lighten up  
Just waitin' for you to take the ride  
And the hot night's fallin'  
Dance floor callin'  
Life won't let you hide  
Just lighten up  
Keep dancing  
Until the morning light

I know what you need
